Camp Pursuit
TOMBALL 2019

Mixed-Age, STEAM classes for incoming 1st-6th graders.

NuMinds Enrichment, LLC © 2019
When it comes to learning

We believe in a spark. That small, fiery particle that ignites us and sends us on a path of self discovery. Young-and-old, when we are fueled by our passions, we burn endlessly in our pursuit of knowledge and experience.

Look around

We are all surrounded by fuel. From the protist in the petri dish to the interstellar journey of the Voyager, there are infinite paths of inspiration.

Where does the spark come from?

It comes from our sense of wonder. A perpetual cycle that begins with asking “why” and then being amazed...and then asking why. Our wonders lead to a sense of wonder...that leads us to wonders.

Wonders

Never cease
WHY CAMP PURSUIT?
We embrace the freedom of choice, allowing campers to engage with high-interest STEAM topics that most align with their passions and curiosities.

We focus on key character traits through positive messages and curated experiences which nurture mind-body connection in a hands-on, mixed-age environment.

THE CATALOG
Campers attend courses from an interdisciplinary, high-interest STEAM curriculum—courses that align with their passions and curiosity.

ABOUT NuMINDS
Founded in 2013 by two public school teachers, NuMinds Enrichment believes that learning should be fueled by student passion, driven by an intrinsic curiosity, and that individual learners develop asynchronously.

Bustin’ Myths

In the hit series Mythbusters, hosts Adam and Jamie have shown just how amazing science experiments can be when they are connected to real-world passions and curiosity.

In this course, we'll put long-standing scientific facts and everyday myths to the test, and we'll do it with the same fervor and intensity we've come to love from those mad scientists at Mythbusters! Hands-on fun, with a few explosions!

Rock n’ Roll Rocketry

It’s science! It’s math! It’s history...and quite literally, it’s a BLAST! In our rock’n roll rocketry course, campers will explore some of the basic principles of Newton’s Laws of Motion and the aerodynamics of flight as they construct and fly their own model rockets.

We’ll discuss the critical issues of safety, collaboration, and design as we work to tackle the rocket challenge--culminating in a spectacular launch party!
**3i CHALLENGE**

Paper begets cardboard that we fold into boxes--add lenses and a phone, then explore the Space Station. The cycle of invention, innovation, and improvement continues to launch humanity to the next level, and this course provides campers with the tools to create, rethink, and reimagine the world in front of them.

**ENDANGERED ART**

Elephants, and tigers, and gorillas, oh my! Some of our most loved animals on the planet are also endangered. Get to know some of the animals on the endangered species list by examining their unique characteristics and habitat needs through a variety of art activities in a range of media.

Campers will become more familiar with some of their favorite animals and discover some new ones they may not have heard of before. In this course, we’ll explore the beauty and art of these animals while raising awareness of the need for their conservation.
one week only
JUNE 17-21

Mathacadabra: Magic of Math
Throughout history, great minds have been fascinated with mathematical puzzles, paradoxes and wonderments for the sheer joy of it. In this course, you'll kindle (or re-kindle) that spark of curiosity and passion for Math beyond the "drudgery" of formalized step-by-step curriculum. You'll jump throughout history and around the globe, from Ben Franklin's magic squares (USA) to Blaise Pascal's Triangle (France) to Ramanujan's algebra puzzles (India) to Lo Shu puzzles (China), and much more.

You'll also put the "magic" in the Math, literally, as you learn, practice and perform Math-based magic tricks.

Who is Camp Pursuit for?
Any kid who is fueled by curiosity, loves to learn, and is hungry for knowledge and engagement. Most camps are 1st-8th grade, but locations may vary. Please confirm a camp’s age range on its information page.

Is Financial Assistance Available?
We partner with the non-profit organization, Education Unbound, to support high-potential students in financial need. Education Unbound, as well as other generous sponsors, pledge a certain number of scholarships for each week of Camp Pursuit. Scholarships are awarded via an online application process. Please contact us at numindsadmin@numien.com for details.

What is the Cancellation Policy?
$50 from the registration cost is non-refundable. Cancellation notice must be submitted via email to NuMindsAdmin@numien.com. Refund will be issued in the same manner payment was made. 100% of tuition paid (this does not include the $50 Registration Fee) will be refunded if written notice is received no later than four weeks prior to session start date.

Cancellations received within four or less weeks of session start date forfeit full tuition. We reserve the right to cancel a session date if participation numbers are not adequate. You may select an alternative session date, or you may request a full refund of tuition paid. Cancellations of sessions will occur a minimum of four weeks prior to the session.

More FAQs

Back to the Catalog
**Do you Accept Volunteers?**
We love our volunteers, and they help our camp run so smoothly. We accept volunteers between the ages of 14-17. A volunteer application and sign-up form will be released in late March. When the volunteer application becomes available, a link will be posted on our website, our social media, and also sent to friends via our email newsletter.

**What type of curriculum do you use?**
We use our proprietary curriculum model to create unique, STEAM courses that allow for project-based, interdisciplinary study. All of our courses include options for choice and accelerated materials. Every class is taught by a passionate Inspirator who has been trained to work with a wide variety of students in mixed-aged classroom models.
